DISTRIBUTION ENGINEER

Salary circa £55K plus benefits

Based in Havant

We are looking to appoint an experienced Chartered Water Engineer to help us deliver further improvements in our performance to customers in the areas of network operations and maintenance including both leakage and water regulations. The role, reporting to the Engineering Director, involves the control and management of an annual £5.4m operational budget with a team of around 80 people.

This is a key senior management role ensuring that we continue to deliver excellence for our customers and therefore it goes without saying that a proven track record in operational management along with the ability to motivate and drive forward change is a pre requisite for any applicant.

The successful applicant will be an excellent communicator and be able to demonstrate a track record of building trusted relationships both at Operational and Director level along with delivering a pro-active approach to Health and Safety which will build on our recent RoSPA's Presidents Award.

Our values of Excellence, Integrity and Respect are important to us and underpins everything we do. The successful applicant will be expected to always work in line with these values and continually promote them throughout the business.

A good engineering degree and Chartered Status is essential together with experience of working at senior management level preferably from within the Water Industry.

For an informal discussion, please contact Rod Porteous, Engineering Director on 023 9224 9330.

Applicants should send a CV with 2 referees outlining salary expectations.

Apply to: Ian Limb, Head of HR, PO Box 8, Havant, Hants PO9 1LG
