

*Delivering excellence for our customers,  
our people and our environment*

**Portsmouth  
Water**

## **TECHNICIAN (MECHANICAL AND ELECTRICAL)**

Competitive Salary

Based at Havant

---

Portsmouth Water require a mechanical and electrical technician to work in the supply department, based in Havant, which is responsible for planned and reactive maintenance on our pumping and water treatment equipment.

The successful applicant will be required to work in a multi-disciplined team of 10 technicians working on a broad range of mechanical and electrical equipment. The mechanical and electrical team undertakes work on pneumatic, hydraulic and electrical control systems including PLC's and also chemical and other process instrumentation. Applicants with experience and competence in any of these areas would be beneficial.

The applicant will be required to work in confined spaces and using breathing apparatus, (full training provided), and carry out their duties at all times in line with our values of Excellence, Respect and Integrity.

The Company is looking for a technician who has served a recognised apprenticeship in a relevant field and should ideally be qualified to HNC level. A full driving licence is essential together with a commitment to participate in a standby rota for which extra payments are made.

For an informal discussion please contact Luke Sibley on 07715 108497.

Applicants should send a CV outlining current salary with 2 referees.
