

*Delivering excellence for our customers,  
our people and our environment*

**Portsmouth  
Water**

## **SUPPLY OPERATOR**

Salary £20k to £23k

Based in Fishbourne

---

The duties will include visiting Water Treatment Works, Pumping Stations and Reservoirs to maintain the operation of the works, collect data and take water quality samples. The position requires work on disinfection plant including chlorine and sulphur dioxide for which training will be provided and monitoring activities in the areas surrounding our works for any activities that may affect our water sources. The role includes routine works maintenance such as periodic cleaning of reservoirs, cutting grass and hedges along with other general activities to maintain the appearance, cleanliness and operability of our works. The post requires participation in a standby rota and will include routine weekend and Bank Holiday working for which call out and overtime is paid.

The applicant must hold a valid driving licence, be numerate, in good health and prepared to use breathing apparatus and work within confined spaces for which training will be provided.

The successful applicant will be self-motivated and flexible, working as part of a small team with an ability to work with a minimum of supervision ensuring all work is carried out in line with the Company's Water Supply procedures and in full compliance with on-site Health and Safety. Their ability to carry out their duties at all times in line with our values of Excellence, Integrity and Respect is a prerequisite for any applicant.

Further details can be obtained by speaking to Mark Botterill, Supply Superintendent on 07738 883796.
