

Water Quality Sampling Senior Technician

UP TO £25,782

Working in a busy and modern, UKAS accredited Water Quality Department, we are looking to recruit a Sampling Senior Technician to work in our team. The department ensures the highest standards of drinking water quality whilst working at all times in lines with our values of Excellence, Respect and Integrity. A pro-active approach and a good track record in H&S will be a pre-requisite for any applicant.

The role will involve a variety of duties including:

- Supporting the maintenance of our existing UKAS accreditation for sampling and the implementation of an extension to our UKAS accreditation to include our distribution network sampling and any future UKAS requirements
- Undertaking sampling audits and training of samplers and inspectors to ISO17025/DWTS requirements and sampling of water supplies

To support the Sampling and Quality Assurance Scientist other duties will be included on a part time basis such as:

- Responsible for the sample reception area of the lab and supervision of staff undertaking sampling
- Sample reports to internal customers, i.e. Distribution, Investment and Supply and liaising with other departments both internally and externally

The candidate will ideally possess a minimum of 2 'A levels' in science related subjects and have experience of working to UKAS accreditation standards for sampling activities. Excellent communication skills, an enthusiastic approach along with an eagerness to learn and a full driving licence are essential requirements for the successful applicant.

The role will suit someone who has experience in dealing with managing staff and comfortable communicating with customers about complex queries and ideally has a recognised supervisory qualification or able to give a commitment to obtain such a qualification.

Applicants should send a CV outlining current salary with 2 referees.
