

M&E Graduate Engineer

**SALARY £23K TO £26K PLUS BENEFITS
BASED IN HAVANT**

We are one of the leading water companies in England and Wales in terms of operating efficiency and service to its customers. To further improve the overall performance we are looking to recruit a Graduate Engineer with an electrical & mechanical engineering background to help deliver the Company's Capital Programme and strategic 5 year plan.

Working within the Non Infrastructure section of the Investment Department, the successful applicant will join a professional team delivering work through the non infrastructure (small) collaborative framework contract. The framework contract has just been let with 3 partners to deliver this work over the next 3-8 years, this is a new arrangement for Portsmouth Water and an exciting time to be joining the team. The role will involve the preparation of project feasibility studies & reports, designs, specifications & contract documentation and managing project delivery. The successful applicant must be able to demonstrate the right behaviours for working in a collaborative partnership and would ideally be able to demonstrate previous experience in delivering this type of work.

The ideal candidate, working at all times in line with our values of excellence, respect and integrity, will be self-motivated, demonstrate initiative and have a positive pro-active approach to health and safety along with a full UK driving licence.

The position requires a degree in Electrical or Mechanical Engineering and the successful applicant will be expected to work towards achieving Incorporated Status with a relevant institute and gaining APMP qualification in project management.

Applicants should send a CV with 2 referees outlining salary expectations.
