

Senior Supervisor - Mains and Services

SALARY £29K TO £32K / BASED AT HAVANT

We are looking to appoint a Senior Supervisor in the Mains and Services Department reporting directly to the Distribution Manager. The department is responsible for maintaining water supplies to our customers and key activities including network operations, identifying maintenance requirements, general system improvements to the distribution network and providing advice to our customers. The department has a crucial 'front end' role by ensuring a high level of service performance is delivered to both our external and internal customers.

The role will require the Senior Supervisor to take a professional, pro-active lead in developing the team of Mains and Services Layers ensuring they are motivated, developed to their full potential and crucially deliver our vision of excellence for our customers, our people and our environment.

The successful applicant will be expected to drive a "no compromise" approach to Health and Safety throughout the team whilst promoting and working, at all times, in line with our values of Excellence, Respect and Integrity.

At times the role will involve dealing with significant operational incidents which will require liaison with our customers, external agencies, and other Portsmouth Water departments. Therefore the successful applicant must be able to demonstrate strong communication and negotiation skills.

As well as having extensive knowledge and experience in water network repair and maintenance delivery, the applicant should have a good understanding of industry and regulatory standards. It is important that those applying for the role are self-motivated, have a positive attitude with a 'can do' approach and the ability to both recognise and deliver best practice.

All applicants should already have a recognised supervisory qualification or will be able to give a commitment to undertake further education to obtain such a qualification as well as undertake an approved development training programme.

For an informal discussion please contact Ben Sydenham on 023 9224 9335.

Applicants should send a CV outlining current salary with 2 referees.
