

## **Civil Engineer**

**SALARY 29K TO 35K PLUS BENEFITS  
BASED IN HAVANT**

We are one of the leading water companies in England and Wales in terms of operating efficiency and service to its customers. To further improve our overall performance we are looking to recruit an experienced Civil Engineer.

Portsmouth Water have a target to maintain or reduce the number of bursts on their network over the short and longer term, part of this work entails renewing approximately 22km of the water mains per year. This work is delivered by the Infrastructure team, a collaborative partnership between Portsmouth Water and Cappagh contractors, with an emphasis on minimising disruption to our customers by maximising the use of no dig installation wherever possible. The team also manage installations on new building sites, service connections, meter options and permanent reinstatement work.

The successful applicant must be able to demonstrate previous experience in delivering this type of work and be able to demonstrate the right behaviours for working in a collaborative partnership. The position is to support the senior contracts engineer in supervising, monitoring and managing the contract as well as driving continuous improvement. The candidate should also be able to demonstrate how they would improve quality of the delivered work, support supervisory staff on the ground and improve performance of the team.

The ideal candidate, working at all times in line with our values of excellence, respect and integrity, will be self-motivated, demonstrate initiative and have a positive pro-active approach to health and safety along with a full UK driving licence.

The position will suit those qualified to degree level and either having recently gained incorporated status or currently working towards their professional review.

Applicants should send a CV with 2 referees outlining salary expectations.
