

## **Quantity Surveyor**

**SALARY £23K TO £29K PLUS BENEFITS  
BASED IN HAVANT**

We are one of the leading water companies in England and Wales in terms of operating efficiency and service to its customers. To further improve the overall performance in our investment department we are looking to recruit a quantity surveyor to support the delivery of the Company's Capital Programme and strategic 5 year plan.

The successful applicant will support the collaborative infrastructure & non infrastructure framework partnerships recently set up to deliver the companies 5 year investment plan. The role will be responsible for improving NEC3 contractual knowledge, application and administration within the department as well as driving efficiency and continual improvement. The role will also support one of larger projects and business planning work associated with PR19. The successful applicant must be able to demonstrate previous experience in supporting teams in this type of role, along with exhibiting the right behaviours for working in a collaborative partnership and having considerable NEC3 contractual knowledge and practical experience.

The ideal candidate, working at all times in line with our values of excellence, respect and integrity, will be self-motivated, demonstrate initiative and have a positive pro-active approach to health and safety along with a full UK driving licence.

The position requires a degree in quantity surveying or relevant engineering discipline along with at least 3 years' experience as a quantity surveyor. The successful applicant should be working towards achieving Chartered Status with a relevant institute.

Applicants should send a CV with 2 referees outlining salary expectations.
