

## **Senior Project Manager - M&E**

**COMPETITIVE SALARY / BASED IN HAVANT**

We are one of the leading water companies in England and Wales in terms of operating efficiency and service to its customers. To further improve the overall performance we are looking to recruit a Senior Project Manager with an electrical & mechanical engineering background to help deliver the Company's Capital Programme and strategic 5 year plan.

Working within the Non Infrastructure section of the Investment Department, the successful applicant will lead a professional team to deliver work through the non infrastructure (small) collaborative framework contract. The framework contract has just been let with 3 partners to deliver this work over the next 3-8 years, this is a new arrangement for Portsmouth Water and an exciting time to be joining the team. The role will be responsible for overall programme and performance management as well as managing the preparation of project feasibility studies & reports, designs, specifications & contract documentation and project delivery. The successful applicant must be able to demonstrate previous experience in delivering and managing this type of work and be able to demonstrate the right behaviours for working in a collaborative partnership.

The ideal candidate, working at all times in line with our values of excellence, respect and integrity, will be self-motivated, demonstrate initiative and have a positive pro-active approach to health and safety along with a full UK driving licence.

The position requires a degree in Electrical or Mechanical Engineering along with at least 5 years experience including knowledge of pumping systems & treatment works. Experience of project management and ideally programme management is also a requirement, having APMP qualification would be an advantage for this post. The successful applicant should be a chartered engineer or be working towards achieving Chartered Status with a relevant institute.

Applicants should send a CV with 2 referees outlining salary expectations.
