

Water Quality Technician

SALARY UP TO 23.5K

Working in a busy and modern UKAS accredited Water Quality Laboratory we are looking to recruit a Water Quality Technician to work in our team. The laboratory ensures the highest standards of drinking water quality whilst working at all times in lines with our values of Excellence, Respect and Integrity alongside a pro-active approach and a good track record in H&S will be a pre-requisite for any applicant.

The role will involve a variety of duties including:

- Analysis of water samples for both inorganic chemistry and microbiological methods
- Sampling of water supplies
- Sample receipt, registration and scheduling
- Calibration and maintenance of equipment
- General laboratory work such as solution and bottle preparation
- Handling of customer calls
- Method validation
- Auditing and training

The candidate should possess 'A levels' or equivalent in scientific subjects and ideally have experience of working in an ISO17025/ DWTS laboratory.

An enthusiastic approach along with an eagerness to learn and a full driving licence are essential requirements for the successful applicant. Once trained participation in a weekend rota will be required.

Please send a CV outlining your current salary with your application.
