

Supply Technical Superintendent

SALARY £36,558 TO £45,135 / BASED IN HAVANT

We are looking to recruit a Supply Superintendent to ensure the safe, efficient and economic operation of the Technical Supply function and to ensure planned and reactive maintenance activities are executed to maintain operability of Water Treatment Works, Service Reservoirs and our other mechanical and electrical assets.

Responsibilities of the role include the validation of data used for Abstraction licensing and regulatory flow data. Proactive monitoring of Abstraction licence conditions to ensure compliance at all times.

Other duties include the supervision of the M&E department, Energy Management and Operation Centre. You will need to delegate tasks, prioritise and coordinate reactive maintenance activities with the Area Supply Superintendents.

Reporting to the Supply Manager, the successful applicant will have a full UK driving licence and a good understanding of the water supply and treatment processes. A recognised supervisory qualification and have or working towards professional registration at Incorporated Engineer level is a key requirement for this role.

A pro-active approach to health and safety is essential along with a good knowledge of all relevant health and safety including the provision of risk assessments.

We are looking for a committed individual who will deliver outstanding performance, whilst working at all times in line with our values of excellence, respect and integrity.

For an informal discussion, please contact Luke Sibley on extension 2283.

Applicants should send a CV with 2 references outlining salary expectations.
