

Distribution Analyst

SALARY £23,880 TO £26,697 / BASED IN HAVANT

We are looking for an analyst to join our distribution team and support our continued efforts to drive down leakage within our network. The analyst will be responsible for identifying areas of high water leakage, analysing flow and pressure data and reporting leakage performance.

The applicant must have an understanding of leakage, have strong analytical skills and be good at problem solving. Knowledge of leakage detection techniques, an understanding of regulatory requirements and GIS skills would also be beneficial.

It is a given that any applicant will be self-motivated and has the ability to carry out their duties at all times in line with our values of Excellence, Integrity and Respect. They will be eager to promote best practice and ensure the leakage team delivers the service expected of them by our customers, in this case reducing leakage whilst maintaining our vision of delivering excellence.

A positive attitude to providing excellent customer service is an essential attribute for anyone who wishes to succeed in this role. There will be a requirement to carry out some out of hours activities. All applicants must have a valid Driving Licence and will need to successfully undertake our Driver Assessment.

Further details can be obtained by speaking to Paul Treagust, Distribution Engineer, on 023 9224 9231.

Applicants should send a CV outlining their salary expectations with two referees.
