

# Catchment Management Manager

**SALARY: COMPETITIVE**

**BASED AT HAVANT**

We have a proud record of providing safe drinking water to the population of Portsmouth and the surrounding areas. Through our catchment management strategy we protect and maintain the water quality working in partnership with organisations, including Natural England and the Environment Agency. An opportunity has arisen to manage our Catchment Management team.

The role will involve the management of a small team who will be responsible for implementing a comprehensive programme of catchment management in AMP 7 and beyond to ensure that our environmental performance commitments are achieved and statutory obligations are met under WINEP.

The successful candidate will have:

- A good knowledge of water catchment issues
- Experience or awareness of agricultural land management
- Experience and understanding of environmental legislation relating to the farmed environment
- Some experience of either catchment management, payment for ecosystem services or natural capital

Other responsibilities within the role include a pro-active approach to H&S and some budgetary control.

The role will suit someone who has experience in dealing with managing staff and comfortable communicating with all levels of the business including external stakeholders. The successful applicant will be self-motivated with the ability to motivate, develop and manage their team in order to deliver a professional first class service in line with our values of Excellence, Integrity and Respect.

Ideally you will be educated to degree level in a Scientific or Agricultural discipline, (or equivalent experience of working on CM activities), be an excellent communicator, and have a valid driving licence. A recognised supervisory qualification or able to give a commitment to obtain such a qualification is an essential requirement for this role.

Applicants should send a CV outlining salary expectations with 2 referees.
