

Graduate Electrical Engineer - Energy

BASED IN HAVANT

12 MONTH CONTRACT £24,477- £27,366

Portsmouth Water is one of the leading water companies in terms of operating efficiency and service to its customers. As part of continual improvement and energy efficiency we are looking to appoint a Graduate Electrical Engineer to join the Production team on a 12 month contract. The Production team is responsible for maintaining and operating the Company's above ground assets including the movement of water from treatment works to reservoirs.

We are implementing two projects to improve operational efficiency and control of our assets. The role will involve supporting the Project Manager with these energy projects and also assisting with other regulatory requirements as they arise. This role will include some site work (Company van provided) to ensure effective communication between contractors and the project lead. The applicant will experience treatment processes including mechanical and electrical plant, telemetry systems, low voltage equipment and PLC's.

A full driving licence is essential and the successful applicant will be required to pass our driver assessment. Applicants are expected to carry out their duties at all times in line with our values of Excellence, Respect and Integrity

For further details please visit our website, or for an informal discussion please contact Rob Pleace on 07545 925498.

Applicants should send a CV as well as outlining current salary with 2 Referees.
