

DWSP Scientist

£24,477 TO £27,366

BASED IN HAVANT

The Drinking Water Regulations requires water companies to undertake comprehensive risk assessments for every treatment works and connected supply system. The risk assessment must cover all hazards and hazardous events which could present a risk of supplying water that could cause a risk to public health.

An opportunity has arisen for a Drinking Water Safety Plan (DWSP) Scientist to join the team to support the Company's Drinking Water Safety Plans covering the Production and Network areas of the business.

Key tasks and responsibilities of the role will include:

- Maintain and Review DWSPs for Production and Networks
- Undertake audits of Treatment Works and Network activities
- Complete event and compliance investigation reports
- Monitor and Review analytical data
- Review and document relevant procedures
- Carry out risk assessments of any emerging risks
- Deliver WQ awareness training
- Liaise with Investment for capital projects

A good understanding of water operations and water quality is essential along with the ability to deliver against set targets and agreed timescales.

A full driving licence is essential and the successful applicant will be required to pass our driver assessment. Applicants are expected to carry out their duties at all times in line with our values of Excellence, Respect and Integrity.

A related technical or science related degree and/or work experience in water quality will be given priority.

For an informal discussion concerning the above role, please contact James Bucknall 023 9224 9285 or Carol Lucas 023 9249 9320.

Applicants should send a CV outlining their salary expectations with two referees.
