

Head of Asset Delivery

Reporting direct to the CEO, the role will be responsible for all matters regarding Asset Delivery, Investment, Water Quality and Procurement.

Some key highlights of the role include taking responsibility for specific company ODI's (outcome delivery incentive's) strategy and performance in areas such as interruptions to supply, ERI, CRI, Bursts, DO recovery & Resilience.

The role will require forward thinking and the ability to understand and deliver best practice in a number of key areas including risk, asset and stakeholder management along with developing and implementation of the Company's capital investment strategy for AMP7 following Ofwat's recent determination.

The role carries an overall budget responsibility for £76m AMP7 Capex and £2m annual Opex along with procurement of £15m annual Opex spend across the company.

You will also be expected to represent the Company in a number of areas at an industry level including:

- UKWIR (UK water industry research programme)
- Water UK (various 'network' groups)
- WOC collaborative initiatives (procurement resilience etc)

The successful person will be of graduate calibre, in career ascent and be able to demonstrate successful leadership credentials and preferably have achieved Chartered Status (or demonstrate appropriate experience) in their chosen engineering field. Senior leadership experience within the water industry or similar regulated industry would be an advantage for any applicant.

Key attributes will include the ability to deal with change and transformation in a visible and accountable environment along with an entrepreneurial spirit working at all times in line with our values of Excellence, Respect and Integrity.

With proven experience of building high performing teams, they will have credibility, strong influencing and communication skills, personal drive and ambition to make a difference.

As a member of the Executive Team you will be an excellent communicator and be able to demonstrate a track record of building trusted relationships both at Operational and Director level along with delivering a pro-active approach to Health and Safety.

Salary circa £80K plus benefits

.....
Applicants should send a CV outlining current salary with 2 referees.
