

M&E Technician

We have an exciting opportunity within Portsmouth Water to join the Production team. The technician role ensures the water treatment works are maintained which enables the effective production of safe drinking water.

The M&E Technician will have particular focus on low voltage switchgear, motor drives, valves, gas dosing equipment, pneumatic plant, pumps and motors. Experience in inspecting, testing, maintaining, fault finding and repairing M&E equipment.

A competitive salary is offered with a commitment to participate in a standby rota once trained. Additional Company benefits include call out payments, overtime, generous holiday and pension entitlement plus life assurance cover.

The role requires a skilled qualification in electrical or mechanical engineering, and ideally you would have served a recognised apprenticeship in a relevant field. Some work requires the applicant to work in confined spaces with the use of breathing apparatus (full training will be provided).

A full driving licence is essential and the successful applicant will be required to pass our driver assessment. Applicants' are expected to carry out their duties at all times in line with our values of Excellence, Respect and Integrity.

For an informal discussion please contact Liam Geoghegan on 07764 969988.

Competitive Salary

Hampshire/West Sussex

.....
Applicants should send a CV outlining current salary with 2 referees.
