

Regulation Manager

Reporting direct to the Finance and Regulation Director, the role will have responsibility for dealing with Ofwat regulatory matters particularly regulatory reporting and be the delivery lead for the 5 yearly regulatory review process (Periodic review).

Some key highlights of the role include developing and understanding the regulatory regime and supporting the delivery of the Company's business plan. A key element will be maintaining constructive and effective relationships with a number of external bodies including Ofwat, CCW and Water UK.

The role will require forward thinking and the ability to understand and deliver best practice in a number of key areas including risk, delivery and stakeholder management along with monitoring the performance and delivery of our business plan outcomes. Alongside this the person will have overall oversight of the business customer engagement strategy and stakeholder research and be our main point of contact working with the Customer Challenge Group.

The successful person will be of graduate calibre, and be able to demonstrate successful leadership credentials and preferably have achieved Chartered Status (or demonstrate appropriate experience) in their chosen field. Senior Management experience within the water industry or similar regulated industry and knowledge of regulatory frameworks would be an advantage for any applicant.

Key attributes will include the ability to deal with change and transformation in a visible and accountable environment along with an entrepreneurial spirit working at all times in line with our values of Excellence, Respect and Integrity.

With proven experience at senior level they will have credibility, strong influencing and communication skills, personal drive and ambition to make a difference.

As a member of the Executive Team you will be an excellent communicator and be able to demonstrate a track record of building trusted relationships both at Operational and Director Level along with delivering a pro-active approach to Health and Safety.

Salary circa £65K plus benefits

.....
Applicants should send a CV outlining current salary with 2 referees.
