

Havant Thicket Reservoir Quantity Surveyor

Portsmouth Water has embarked on a £123 project to build a reservoir at Havant Thicket. This environmentally led project will safeguard future water supplies and provide a place of natural beauty for the community to enjoy. The reservoir will provide wetland habitats, paths for walking, cycling, running and horse-riding, and a visitors' centre providing a café and educational resources for schools. The project will be mainly delivered through a main reservoir contract and two pipeline contracts, with some additional related contracts.

We are looking for two quantity surveyors, one to support the reservoir contract, the other for the pipeline contracts, with some flexibility in providing support for the programme as a whole. The successful candidate will need to uphold our values of excellence, integrity and respect.

Main responsibilities are:

- Support the project managers to ensure that the project is completed within its budget
- Validate project costs during the NEC target price contract, OCI design phase and advise on value engineering decisions
- Evaluate changes and make recommendations for optimum solutions to project risk
- Audit contractor cost collection systems
- Measure progress and earned value, in liaison with contractors, the programme and risk manager, supervisors and project managers
- Scrutinise contractor information, including programmes, applications for payment, compensation events and early warning notices
- Maintain configuration control of the target price contract, KPI performance incentives and pain-gain share values
- Evaluate risk in order to enable P50 monte carlo risk analysis
- Seek early resolution to potential disputes
- Develop the lifecycle financial model in readiness for handover into operations

To meet the high demands of this role, we are looking for a person who has the following:

Skills

- Strong communication skills with the ability to build excellent relationships with the client and contractor teams
- A clear, systematic approach to analysing data and communicating solutions to challenges in an effective, efficient, high-level manner

£50k - £65k, car allowance £4,712

Based in Havant

.....
Please include your CV and salary expectations.

**Apply to: Ian Limb, Head of HR, PO Box 8,
Havant, Hants PO9 1LG**

E-mail: jobs@portsmouthwater.co.uk

Website: www.portsmouthwater.co.uk

We are happy to consider flexible working arrangements. This can include alternative days / hours of work or work location. Please specify any request in your application.

Closing date: 14 JANUARY 2022

- Ability to work to deadlines with a focus on results and quality
- Excellent analytical skills with the ability to review data and write decision support papers and progress reports
- Excel/Powerpoint/Word/Teams

Qualifications and Experience

- Bachelor's degree in quantity surveying or a related field of study
- 7 or more years of cost management experience of major civil infrastructure projects. Water industry or major earthworks experience would be an advantage
- NEC contracts experience is essential
- Chartered Member of a relevant professional institution e.g. RICS, ICES, CIOB
- Full driving licence (all applicants will be required to undertake our driver assessment)
