

Production Technical Maintenance Technician

Would you like the opportunity to develop your maintenance engineering experience within Portsmouth Water?

Portsmouth Water provides high quality public water supplies to a domestic population exceeding 698,000, as well as many important industries, large defense establishments and varied commercial businesses. We have a long tradition of providing safe drinking water of the highest quality from our springs, wells, boreholes, and surface water sources.

Portsmouth Water have a proud record of maintaining high standards of customer service whilst having the lowest water supply charges in England and Wales.

There is now an opportunity to join our Production team as a Maintenance Technician in South East Hampshire and South West Sussex.

What will you be doing?

The Maintenance Technician role ensures the water treatment works are maintained which enables the effective production of safe drinking water. The Maintenance Technician will have particular focus on maintaining and repairing mechanical and electrical equipment such as low voltage switchgear, gas dosing equipment, pneumatic plant, pumps and motors, and routine maintenance of water quality instruments.

What do you need?

- Ideally a qualification in mechanical or electrical engineering
- Ideally a recognised apprenticeship in a relevant field
- Capable and comfortable working in confined space with the use of breathing apparatus (full training provided)
- A full UK Driving license
- Self motivated with an aptitude to learn
- Comfortable working alone and as part of a team
- Water industry experience is beneficial
- Work at all times in line with our values of Excellence, Respect and Integrity as well as a proactive approach to Health & Safety.

What can Portsmouth Water offer you?

In return for your hard work as a Maintenance Technician, a competitive salary is offered alongside additional company benefits which include overtime, generous holiday and pension entitlement plus life assurance cover.

If you have the skills and experience to excel as our Maintenance Technician, click apply today.
