## Application Process Information

This form should be used for requesting a pre-development enquiry for a new development site. Please email the completed form to **[new.developments@portsmouthwater.co.uk](mailto:new.developments@portsmouthwater.co.uk)**.

Please include a site layout drawing in 'pdf' format. The scale should be at 1:500 and should clearly show:

- The site boundary
- The proposed point(s) of connection for the bulk supply (if desired somewhere specific)

Please also include the build programme to show the number of connections being completed over time.

Upon receipt of your application, we will review your application for completeness and email to acknowledge completeness, and include an invoice for your enquiry, within 5 days.

Upon receipt of payment for your enquiry we will provide our response within 21 days. The pre-development response will confirm if any network reinforcement will be required in order to supply the site, a budget estimate for mainlaying and service connections as well as the anticipated pressures at the proposed point of connection.

Should you wish to obtain a detailed quotation for mainlaying and the non-contestable costs for your development site, you will need to continue via the mains requisition process by applying for a mains design or mains design approval. Please complete the mains requisition application form available on our website or via our portal in order to complete your application. Please contact **[new.developments@portsmouthwater.co.uk](mailto:new.developments@portsmouthwater.co.uk)** if you have any queries regarding your application.

## Section A

# Contact Details

Name of key contact	
Company name	
Company address and postcode	
Landline telephone number	
Mobile telephone number	
Email address	

## Section B

# Site Details

Site address and postcode	
Grid reference	

## Section C

# Site Information

Total number of properties to be connected on site	
Total number of domestic properties	
Total number of commercial properties	
Anticipated daily water demand for the site (m <sup>3</sup> /day)	
Expected start date for installation of on-site mains	

## Section D

# Declaration

I confirm that the information in this form is complete and correct to the best of my knowledge and I agree to the Mains Requisition Terms and Conditions.
