

Project Manager

We are looking to recruit an experienced Project Manager to manage the delivery of Non Infra Framework projects in line with the AMP7 Capex programme across a number of our operational sites. The role will be responsible for ensuring projects are delivered to specification and budget, whilst working to a number of key deadlines and ensuring the quality meets the expectations of key stakeholders.

The successful candidate will be expected to have experience of project management (ideally with a Electrical or Instrumentation Control Automation (ICA) skillsets or an Electrical and Mechanical bias) and a good knowledge of NEC4 contracts and CDM principles. They will be able to demonstrate an attention to detail whilst having the ability to use their initiative to resolve issues and drive projects forward to a successful conclusion.

Previous experience in working within UK Water industry is preferred, either within a Water Company, consultant &/or contractor.

The candidate will be an excellent communicator with a track record of building strong relationships with internal and external stakeholders, companies, contractors and suppliers. Along with a pro-active approach to Health & Safety and customer service, working at all times in line with our values of excellence, respect and integrity. Applicants are expected to hold a full UK driving licence and will need to successfully undertake our driver assessment.
