

# Leakage Team Leader

Portsmouth Water is a community-focused water company that has been supplying water to Portsmouth and the surrounding area since 1857. We provide high quality public water supplies to a domestic population exceeding 698,000. We are going to halve our level of leakage by 2050, which will help ensure that we can continue to supply our customers for years to come and minimise the impact to the environment. We have made great progress with this challenge and to date we have reduced leakage significantly and have become industry leaders in leakage performance.

We are looking to recruit a Leakage Team Leader to fulfil an important position in the business. Along with a pro-active approach to Health & Safety, you will be working at all times in line with our values of excellence, integrity and respect.

## Key activities of the role include;

- Planning leakage detection activities
- Analysing acoustic network data
- Liaising with repair and maintenance teams
- Liaising with customers regarding potential leaks
- Providing training and assistance to the Leakage Technicians
- Performing health and safety audits and risk assessment updates
- Works Order back office administration

It would be advantageous for the candidate to have experience in Leakage Detection, although this is not essential, and a positive attitude is a must. The successful applicant would require an IOSH (Managing Safely) qualification or similar, or be willing to work towards obtaining one.

Applicants must have a valid Driving Licence and will be required to undertake our Driving Assessment. Self-motivation is important as the individual will be expected to work outside in most weather conditions using a Company van. In return, we offer a 36.25 hour working week, 24 days annual leave (rising to 28 based on continual years' service) and a stakeholder pension scheme. Typically working from 8am to 4pm: Monday to Friday, although occasional night work will be required.

For more information contact Jason Bowles on 07740 155864.

**£26,244 to £29,340 (Grade 4)**
