

Network Field Technician

Do you enjoy working outdoors and being part of a team in a varied and challenging role? If so, we have an opportunity in our Network Department for a Network Field Technician. This is a multi-disciplined role dealing with customer reported water supply issues, new supply connections and providing a first visit resolution for small leaks, minor maintenance requirements or undertaking larger scale repairs as part of a team.

The role includes excavation work by hand or by mechanical means and responding to water supply emergencies in and out of normal working hours.

You'll be working individually or as part of a team, outdoors, in all environments, dealing with different challenges every day and providing a vital service to our customers helping us to meet quality and customer service standards.

This role will operate across our area of supply with the successful candidate expected to be flexible to accommodate out of hours working both planned and reactive. Training will be provided as will the support of a well-established and effective team.

We're looking for someone with a positive and can-do attitude who is well-organised, customer-focused and great at working individually or as part of team.

You will need:

- A valid driving licence (B+ E).
- A current street-works ticket (NRSWA) - although training can be provided.
- Health and safety awareness.
- Previous experience of working as part of a Repair and Maintenance team or for a utility company or equivalent.
- Mechanical excavator & HGV qualification and competence advantageous.
- Knowledge of underground services/plant.
- EUSR hygiene certificate (ideal but not essential).

In return we offer a range of benefits that include:

- Private pension scheme
- 24-28 Days holiday
- Personal/professional development

Sounds interesting? For an informal discussion please call Darren Brown on 07502 291172.

Salary £26,244 to £29,340 (Grade 4)
