

Water Production Operative

We are recruiting for a Water Production Operative to work in our Production Operational Department. The department consists of a multi-disciplined team that are responsible for the day to day operation of Portsmouth Water's production assets.

Essential duties and responsibilities may include, but are not limited to the following:

- Visiting water treatment works, pumping stations, reservoirs and monitoring sites to carry out essential duties.
- Carrying out tasks to ensure that our treatment works are operating efficiently at all times to supply our customers with wholesome water.
- Data collection of water quality and asset performance.
- Valve operations and schematic reading.
- Basic maintenance and tasks associated with chemicals e.g. chlorine gas cylinder changing, bulk liquid chemicals deliveries among others.
- Participate in a busy standby rota (Minimum of 1 in 4 weeks)

The successful applicant will be physically fit, self-motivated, A to C grade GCSE English and Maths, computer and smart phone literate, flexible and have good attention to detail, working as part of a team ensuring all work is carried out in line with the Company's Water Supply procedures and in full compliance with Health and Safety. You will be willing to develop and learn within the role and have the flexibility and competence to operate and maintain multiple sites working at all times in line with our values of excellence, integrity and respect.

It would be advantageous but not essential to have the following experience and skills:

- Experience in working with HMI systems.
- A good understanding of water treatment process.
- High risk confined space qualified.

The role requires the following qualifications (full training provided where necessary):

- Working in High Risk Confined space (including the use of self-contained breathing apparatus).
- Full UK driving licence with categories B and BE. You will be required to undertake our Driver Assessment.
- Competent operator qualification (Level 3 Diploma in Water Treatment).

For an informal discussion please contact Darren Rees on 07545 925501.

Please do not be deterred from applying if you do not match all the criteria above or are new to the industry. What is more key is a willingness to learn and engage with new activities, so if you are interested in learning more about this role, we would love to hear from you!
