

WATER SAFETY RISK ASSESSOR

EXCELLENCE | INTEGRITY | FUTURE FOCUS

We have an exciting opportunity to join the Drinking Water Safety Plan team which delivers the Company's Drinking Water Safety Plans, for all areas of the business from catchment to the customers tap.

This is your chance to shape how Portsmouth Water extract, treat and deliver drinking water as we go through our review of the whole business. This will include auditing our assets, work processes and operational practices.

This opportunity has arisen due to an internal promotion and will support our Water Risk Manager to provide a professional service, ensuring all risks to the drinking water are identified and mitigated.

As part of a small team the successful candidate will have a broad exposure to a range of activities, across our catchments, on our water treatment works and distribution networks covering South East Hampshire and parts of West Sussex.

We are looking for an adaptable, reliable, risk focused individual to join us on our transformational journey.

Benefits:

- Enhanced pension
- 24 days leave rising to 28 after 5 years

Typical Tasks and Responsibilities:

- Independent risk assessments from source to tap.
- Working with internal staff to identify risk and mitigations.
- Verification, co-ordination, sign off and submission regulatory reports.
- Technical audits on our assets from catchment to consumer.
- Ensuring the policy and procedures and associated documentation are up to date and accessible.
- Working with external stakeholders including the Drinking Water Inspectorate, the Environment Agency and consultants.
- Support wider internal activity from the Investment, Project Delivery and Catchment teams.
- Provide advice to the wider business on water risks and support senior managers in decision making.
- The successful candidate will work at all times in line with our values of Excellence, Integrity and Future Focus.

We support continued career development and are investing in a range of training and development programs. These include opportunities to support ongoing professional development towards chartered status.

Ideally, applicants will already have a degree (or equivalent). We are open to a broad range of backgrounds including, Engineering, Environmental Sciences, Earth science or Scientific. They must have excellent reporting skills with an emphasis on clarity, attention to detail. They should also
