

PRODUCTION TECHNICAL EICA TECHNICIAN

EXCELLENCE | INTEGRITY | FUTURE FOCUS

Would you like the opportunity to develop your EICA experience within Portsmouth Water?

Portsmouth Water provides high quality public water supplies to a domestic population exceeding 698,000, as well as many important industries, large defense establishments and varied commercial businesses. We have a long tradition of providing safe drinking water of the highest quality from our springs, wells, boreholes, and surface water sources.

There is now an opportunity to join our Production team as an Electrical, Instrumentation, Control and Automation Technician in South East Hampshire and South West Sussex.

The successful applicant will be self-motivated, smart phone literate, flexible and have good attention to detail, working as part of a team ensuring all work is carried out in line with the Company's procedures and in full compliance with onsite Health and Safety. You will be willing to develop and learn within the role working at all times in line with our values of excellence, integrity and future-focus. If you are looking for a new role which is fast paced, challenging and rewarding we want to hear from you!

What will you be doing?

The technician role ensures the water treatment works are maintained which enables the effective production of safe drinking water.

The Electrical, Instrumentation, Control and Automation (EICA) Technician will have particular focus on inspecting, testing, maintaining, fault finding and repairing SCADA, PLC and telemetry systems. The role will also include commissioning of instrumentation and fault finding process applications. The successful candidate will also demonstrate a working knowledge of Schneider ClearSCADA, Unity Pro/Control Expert, Wonderware InTouch, Allen Bradley SLC.

What do you need?

- A qualification in electrical/electronic or control systems engineering
- A recognised apprenticeship in a relevant field
- BS7671 18th Edition
- Capable and comfortable working in confined space with the use of breathing apparatus (full training provided)
- A full current driving license is essential, and a driving assessment will be undertaken
- Self motivated with an aptitude to learn
- Comfortable working alone and as part of a team
- Ability to work under pressure and to set deadlines
- Water industry experience is beneficial
