

# SENIOR LEAKAGE ANALYST

**We're making a difference: Together, we can ensure that there is enough water for everyone, now and in the future.**

We are looking to employ a Senior Leakage Analyst to perform and lead leakage analysis within the Leakage and Smart Networks Department, with the overall aim of further reducing Leakage on our Network.

You will be analysing flow, pressure, acoustic and customer demand data to provide insight to aid leak detection efforts, as well as assisting with leakage reporting when necessary. The team will also consist of a Leakage Analyst.

The successful candidate will be an excellent communicator with a track record of building strong relationships with internal and external stakeholders, whilst demonstrating PW's core values of 'Excellence and Integrity'. It is expected that you will have ample experience in Clean Water Leakage Analysis.

**320,000**

Properties supplied with water

**170 Million**

Litres of drinking water per day
