

IT PROJECT MANAGER

We're making a difference: Together, we can ensure that there is enough water for everyone, now and in the future.

We have a new and exciting opportunity for an IT Project Manager to be part of Portsmouth Water's transformation. The transformation will see us embed new smart and innovative technology, build capabilities across the organisation, and leverage a range of digital tools. This role will play a key and vital role in our journey.

The IT Project Manager will be responsible to deliver a variety of projects in line with our standards and policies to support the company strategy. You will also act as a business partner in supporting the delivery or requirements across the business and support the wider IT team in delivering within the scope of assigned projects. Take the lead on champions' new ways of working, supporting and coaching the project teams to successfully deliver projects. Capture all project details such as, Business cases, Detailed requirements, manage Risks and Issues as well and maintain plans and reports.

The successful candidate will:

- Be an excellent communicator with a track record of building strong relationships with internal and external stakeholders
- Be able to demonstrate Portsmouth Waters core values of 'excellence, integrity and future focus'
- Be highly motivated in the delivery of the remaining AMP7 Capital programme, as well as a strong focus on the development of future AMP8 projects
- Have a proven track record of leadership and the delivery of successful high value projects
