

SMART METERING DEPLOYMENT LEAD

We're making a difference: Together, we can ensure that there is enough water for everyone, now and in the future.

We are looking to hire a Smart Meter Deployment Lead to join our Programmes Department. You will be part of an exciting and upcoming project of the deployment and installation of smart meters to our valued customers. Whilst ensuring the smart roll out aligns with our strategy, you will be also producing forecasts and plans to our internal and external stakeholders.

Key Responsibilities

- Working closely with procurement and operations colleagues to embed a set of contractual KPI's & SLA's agreed within the contract.
- Identifying the key drivers and ensure the delivery approach includes new installs, exchanges and new builds to achieve demand reduction and leakage targets set out in our Business Plan.
- Proactive engagement and challenge with workstream leads and other stakeholders to progress delivery, report on outputs and identify risks.
- Utilising insight on demographics, housing mix, and geographical factors to ensure we establish a deliverable plan.
- Establish a clear understanding of the interdependencies between the supplier contracts and implications on the delivery approach, including availability of the network to communicate with the new meters and order of installation.
- Establishing a clear roadmap to successfully deliver a pilot in AMP7 and achieve the benefits required in AMP8 and beyond.
- Provide periodic reporting on the progress of the delivery and identify recommendations for changes to support the delivery of the agreed business outcomes.
- Act in accordance with all appropriate Health and Safety legislation
