

PRODUCTION MECHANICAL AND ELECTRICAL TECHNICIAN

We're making a difference: Together, we can ensure that there is enough water for everyone, now and in the future.

At Portsmouth Water we have been supplying water to Portsmouth and the surrounding area since 1857. For 365 days of the year our water treatment works are in constant operation ensuring that we meet the water demands of our customers. Our production team operate and maintain our treatment works and due to a department restructure we have several exciting vacancies that we are looking to fill. The successful applicant will be self-motivated, flexible and have good attention to detail, working as part of a team ensuring all work is carried out in line with the Company's procedures and in full compliance with onsite Health and Safety.

You will be willing to develop and learn within the role working at all times in line with our values of Excellence, Integrity and Future Focus. If you are looking for a new role which is fast paced, challenging, and rewarding we want to hear from you!

We are looking to hire a Mechanical and Electrical (M&E) Technician to work at our water treatment works, reservoirs and booster stations across Hampshire and West Sussex. You will be maintaining, fault finding, testing, inspecting and repairing M&E plant for the area's water treatment works and associated Network distribution assets.

Key Responsibilities:

- Ensure compliance with planned maintenance schedules.
- Maintain, diagnose, repair, modify, configure, commission low voltage switchgear, motor drives, valves, gas dosing equipment, pneumatic plant, pumps and motors.
- Visit water treatment works, pumping stations, reservoirs to monitor asset performance and operability.
- Collect asset health and performance data, recording routine activities and work completed.
- Respond to breakdowns on a range of M&E plant, assess problems and carry out repairs.
- Ensure that equipment is maintained and calibrated to the manufacturers specifications and is auditable.
- Supervise team members and assist with their development and learning.
- Exchange information with other team members, plant operators and departments within the Company as required.
- Complete documentation accurately and in a timely manner to maintain internal change control standards.
