

SMART NETWORKS ANALYST

We're making a difference: Together, we can ensure that there is enough water for everyone, now and in the future.

Portsmouth Water are delighted to announce an exciting opportunity for a Smart Networks Analyst to join our Smart Networks Team!

This role will be providing key operational analysis to support the delivery of our Leakage Reduction Programme, as well as our Smart Network Strategy. The role holder will be joining an evolving and dynamic team, dedicated to optimising network performance, and further reducing leakage, which is one of our key performance commitments, and is of high importance to us and our customers.

The role requires no prior experience to the water industry and is an excellent entry opportunity for a talented analyst to get stuck into tons of operational data and provide valued insight and results!

What will you be doing?

Key Responsibilities

- Perform Acoustic Fixed Network Advanced Analytics
- Raise Points of Interest (POI's) for Leakage Technicians to investigate
- Ensure unavailable sites are picked and rectified quickly
- Analyse Flow, Pressure and Acoustic datasets for Network Performance Optimisation and Leakage Reduction
- Assist the wider Leakage and Smart Networks Team with key data analysis of District Metered Areas (DMA's), network data points and customer consumption patterns
- Provide cover for Regulatory Leakage Reporting
- Perform Hydraulic Model Analysis and Simulations to provide insight to the operational teams
