

STRATEGIC SOURCING MANAGER

We're making a difference: Together, we can ensure that there is enough water for everyone, now and in the future.

Portsmouth Water is excited to announce an opportunity for two Strategic Sourcing Managers to join our Procurement Department as we develop our supply chain in preparation for our next AMP8 investment period!

In this role, you will be responsible for developing and managing multiple sourcing initiatives that deliver exceptional value to Portsmouth Water. You will establish effective working relationships with key stakeholders and the supply market while embodying Portsmouth Water's values and behaviours. Additionally, you will ensure the effective delivery of contractual arrangements, achieving strong quality and technical outcomes, value for money, procurement regulatory compliance, and effective commercial relationships.

What will you be doing?

Key Responsibilities

- Lead the supply chain sourcing process for a portfolio of procurement projects, working within in a supportive and passionate departmental culture. This will help ensure on target delivery of our key business projects by sourcing from the supply chain and wider markets. (Dependent on specialist knowledge and experience this may be targeted to specific categories including Construction, IT and Technologies or Professional Services).
- Shape and challenge business requirements utilising market and supplier insight.
- Leading sourcing strategy development for specific projects as allocated, in line with agreed business objectives.
- Looking to identify compelling and innovative sourcing strategies which challenge current ways of working and deliver best value to Portsmouth Water.
- Project management and prioritisation of several sourcing initiatives effectively through agile project delivery and problem-solving skills.
- Support development of best practice across the Procurement lifecycle; ensuring the Portsmouth Water process is regularly reviewed and updated.
- Building deep and trusting relationships with key stakeholders both internally and externally (supply chain) with an ability to engage and influence at senior levels.
