

WHOLESALE BUSINESS ANALYST

We're making a difference: Together, we can ensure that there is enough water for everyone, now and in the future.

Calling experienced Business Analysts! We are looking at you to join our team at Portsmouth Water at an incredibly exciting time. Portsmouth Water are embarking on a digital transformation journey which will revolutionise the way we interact with our customers and operate our business. We have exciting large technology transformation programmes on the agenda, as well as smaller quick fire innovation projects. We need you to play a critical role in developing new solutions to meet our business and project goals. This role will focus on ensuring the wholesale area of our business have the processes and technology required to meet industry obligations and internal efficiencies.

What will you be doing?

Key Responsibilities

- Designing and facilitating workshops and interviews with business stakeholders to understand their challenges and aspirations
- Defining the future business processes and system requirements needed by our stakeholders for success
- Performing data collection, modelling and analysis to support the development of business cases and beyond
- Articulating process, system and data requirements via Agile and Waterfall methodologies
- Defining user stories, acceptance criteria and supporting elements of testing to ensure the expected quality standards are met
- Working closely with Project Managers, contributing to project governance including planning, status reporting and risk & issue management
- Working closely with Product Owners to shape our technology roadmap
- Building and maintaining positive relationships with all stakeholders to support driving projects to success
- Supporting business change activities by providing content and review where appropriate
- Helping to shape and define the Business Analysis team practices and processes to continually improve our ways of working
